MEMORANDUM FOR: Assistant for Plans and Development, NFIC

25X1A

SUBJECT:  Chip Comparator

1. To be compatible with up coming Photo Interpretation techniques, the Technical Intelligence Division should be in a position to accommodate photographic materials in the configuration employed by the PI. Also, TID must have viewing equipment comparable to that used by the PI; what he sees, we must see.

2. The TID has in its FY 1965 budget  for one 405B Chip Comparator, on line to the 490 Computer.  has indicated that in the near future he will be placing an order for additional Chip Comparators, and that if we wanted one, now is the time to order.
